

REDEVELOPMENT PROJECT PROFILE

SALT LAKE CENTRAL STATION AREA PLAN

VISION

This is a multi-organization effort to create an Implementation Plan to guide neighborhood development on UTA- and RDA-owned properties. The general area is bounded by 300 North and 400 South, and 300 West and Interstate 15.

Building upon input gathered from the community and stakeholders (transit riders, future users, future residents) the Salt Lake Central Station Area Project design team recommended an Implementation Plan to redevelop property near two of the City's most highly used light rail stops: Central Station/Intermodal Hub and North Temple Station. The RDA and UTA are currently determining method for moving forward with development.

DETAILS

LOCATION

~38 acres of UTA- and RDA-owned land near Central Station/Intermodal Hub and North Temple transit stations.

RDA PROJECT AREA

Depot District

RDA INVESTMENT

\$50,000

PROJECT PARTNERS

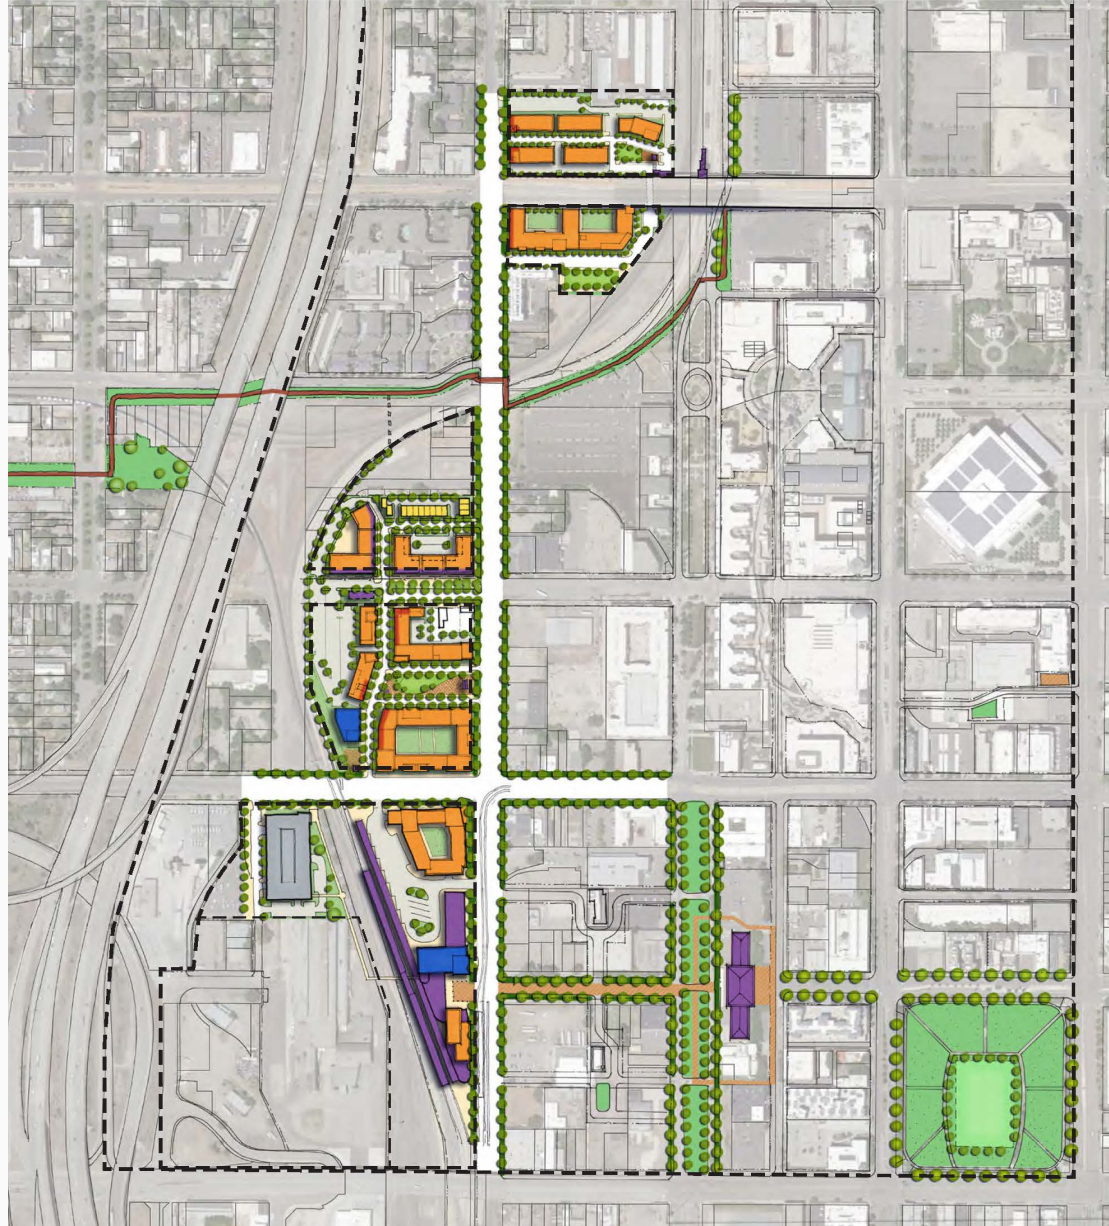

Utah Transit Authority (UTA), Wasatch Front Regional Council (WRFC), Salt Lake City's Planning, Transportation, Housing and Neighborhood Development, and Parks + Public Lands Divisions

UTA + RDA
