# UTAH COMPACT *on* RACIAL EQUITY, DIVERSITY, *and* INCLUSION

*A Declaration of Five Principles and Actions to Create Equal Opportunity*

We, the signers of the Utah Compact on Racial Equity, Diversity, and Inclusion, affirm that all people are created equal under God. A racially equitable state requires us to act and create a society in which race and ethnicity do not determine or limit value, opportunity, and life outcomes.

We also affirm two key principles on which everyone can agree: That all Utahns must have a truly equal opportunity to prosper, and that economic inclusion is essential to creating these opportunities.

We view racism as more than just an individual character flaw. It is a system of ideas, beliefs, practices, structures, and policies that give some people greater opportunity to be fully human and live a happier and healthier life than others. Unraveling centuries of internalized and systemic racism requires bold anti-racist actions and policies right now.

We pledge to advance behavior on an individual, business, and government level that will establish priorities and laws that create equal opportunity and access for all.

We likewise pledge to foster cultures of inclusion in every aspect of our organizations and society while addressing social injustice and inequality, and condemning all forms of prejudice, bigotry, and discrimination.

We believe many of our nation's societal ills can be solved by providing equal opportunity and access to education, employment, housing, and healthcare.

We further recognize that we must listen and learn from each other, realizing that as we deepen our understanding of differences, we can, in turn, be better understood.

***Therefore, we commit to, and invite other Utahns to commit to, these anti-racist principles and actions:***

- 1. Acknowledgement and action** – We acknowledge that racism exists, and our actions make a difference. We call out racism wherever we see it and take purposeful steps to stop it.
- 2. Investment** – We invest our time and resources to create greater opportunity for people of color. Eliminating racial and ethnic disparities requires our significant effort and investment.
- 3. Public policies and listening** – We advance solutions to racial ills by listening and creating policies that provide equal opportunity and access to education, employment, housing, and healthcare.
- 4. Engagement** – We engage to effect change. Broader engagement, equitable representation, and deeper connection across social, cultural, and racial lines will uphold the principle – “nothing about us, without us.”
- 5. Movement, not a moment** – Utahns unite behind a common goal to create equal opportunity. We affirm our commitment will not just be a passing moment, but a legacy movement of social, racial and economic justice.

“WE ARE ALL IN!”

## SIGNATORIES
