

# April 2025 Proposed Service Changes

UTA periodically updates our services, fares, customer-facing information, and more across our service area to make improvements and adjustments to the system — these changes happen three times a year on Change Day. April 2025 Change Day is scheduled for April 13, 2025.

The service change proposals will help implement the first year of the [UTA Five-Year Service Plan \(5YSP\)](#). The goals of the Five-Year Service Plan include:

- Improve employee working conditions and provide consistent service throughout the day
- Implement Long-Range Transit Plan and prepare for future service and projects
- Respond to community and stakeholder feedback
- Optimize the system for more access within current limits
- Restore service in areas where it was previously reduced
